

Application for Distribution of Non-School Material

NCISD Board Policy GKDA allows for the distribution of certain non-school literature in the form of flyers on school campuses or other District property. Organizations that wish to submit a flyer for distribution must do so in accordance with Board Policy GKDA and the following procedures. If a flyer is approved for distribution, it is the responsibility of the requesting organization to provide the school with copies of the flyers. The time, location, and means by which an approved flyer is distributed is at the discretion of the campus principal, however, the term “distribution” as used in this procedure generally means placing items in the area designated at each campus for the dissemination of non-school related materials. If the materials are approved for distribution, the requesting organization must provide the facility with the materials to be distributed, and they will be placed in the designated distribution area. Please contact the school prior to delivering flyers for guidance on delivery. A copy of this signed form must be delivered with each set of flyers you would like placed in the distribution area.

All of the following criteria must be met for flyers to be considered for approval/distribution:

- Flyers must contain the disclaimer: *New Caney Independent School District has approved the distribution of this flyer as a community service. The District is not a sponsoring organization for this activity. No endorsement of the products or services by the District is stated or implied.*
Spanish Translation: *El Distrito Escolar Independiente de New Caney ha aprobado la distribución de este folleto como un servicio comunitario. El Distrito no es una organización patrocinadora de esta actividad. Ningún endoso de los productos o servicios por parte del Distrito está declarado o implícito.*
- May contain the name and contact information of the sponsoring organization but should not contain advertising logos or promotions for any business/organization other than the approved entity.
- No fundraising flyers are allowed from groups outside the school.
- The flyer(s) must not cause disruption of the operation and discipline of the school.
- Per Board Policy GKB (Local), advertising shall be accepted solely for the purpose of generating revenue for the District and not for the purpose of establishing a forum for communication. Advertising is a communication designed to attract attention or patronage by the public or school community and communicated through means under control of the District in exchange for consideration to the District.
- Contents of flyers must also meet the requirements set forth in Board Policy GKDA (Local). The District shall approve or reject the proposed flyer in accordance with those requirements.
- Approvals will be valid for a period of 30 days from approval date.
