**Mindsets are everything**

Dear Parents and Students,

We hope that you had a restful Christmas break with your friends and family. At the end of the Fall semester students and parents were notified that remote instruction would no longer be an option for students who were involved in athletics, CTE, and fine arts activities/classes. As of January 5, 2021 students who are involved in athletics, CTE, and fine arts activities/classes were required to become in-person learners. In an effort to continue to do what is in the best interest of our students' we realize that COVID has presented some unique challenges for certain students and/or families. If your student or someone who lives in your child's household has a high-risk medical condition as defined by the Centers for Disease Control and you wish to request a medical exemption from required in-person learning for your child, you can do so by clicking on the Return to Campus Medical Exempt form found on our Porter High School webpage under Quicklinks. Upon submission of the Laserfiche form someone from your child's campus will contact you to set up a conference call to review the exemption request.

We would also like to remind our students and families that it is important that students are in attendance for school. If your student is an in person learner it is required that your student be in class at school every day. Should your student be a remote learner it is required for your student to log in to Canvas and complete assignments every day. Students failing to attend classes will be marked absent and the truancy process will begin. We are asking our parents to check Skyward for your students' attendance regularly.

If you have any questions or concerns about this please feel free to contact me.

Sincerely,

Cesar Condarco  
Principal Porter High School
