

RFP 149.20 V Contracted Professional Development Services Q&A

- What is the end date for the RFP?

Since this is a rolling bid with the final contract ending 08/31/2025. For the dates on the Independent Contractor Agreement, we cannot have contracts that cross multiple fiscal years so the initial contract date for that will be 08/31/2023 and then renewal letters will be sent out after the extension approval at the August Board meeting.

- If our company is part of a cooperative that the district participates in do we still respond to the RFP?

While it is not required that you reply to the RFP if you participate in a cooperative that NCISD participates with it is still highly encouraged. As sometimes pricing offered to the district directly can differ than cooperative pricing.

- Can you clarify what is meant by FOB Destination – can shipping not be charged separately at all or can it be charged as long as it is detailed on the quote?

Shipping can be charged it just has to be stated on the quote.
